

YKK

Little Parts. Big Difference.

Vislon®

bright colour combination

The Vislon® zipper with slim element is lighter than metal zippers of the same size. Rich element colour variations are created by formulating the colour pigment in the polyacetal resin during the injection process. The slider is enamelled in bright "fluorescent" colour.

Size: 5 only

Function:

Closed-end/Open-end/Two-way/
Roll chain

Available colour for chain:
limited number of standard colors are available. Please contact your account manager for more information.

Available colours for fluo puller:
Yellow, Orange, Pink, Green.

Finishes:

Matt, Soft Touch, Bright.

Please note:

This item is not recommended for Shoes/boots, back-pack, hand bag and luggage because of the shape of the slim elements. Back or Reverse use are not allowed.
